

Paper Collage Chicks

The best way to learn the parts of a bird is to actually make one yourself! Although First Grade spends lots of time labeling birds like a scientist, we also create a bird by using collage. Students need to use their knowledge of bird parts to make their own collage- size, proportion, paper choice, fine motor skills and careful attention to details are all a part of this work.

PAPER COLLAGE BIRDS

Can you find all the
body parts?

- body
- head
- wings
- legs
- feet
- beak
- feathers
- eyes
- tail
